## District Responsibilities

- The district will comply with the Children’s Internet Protection Act (CIPA) to prevent inappropriate use of the Chromebook and/or internet, whether in use at school or at home.
- Compliance will be through the use of software that filters web access for inappropriate content, and monitors students for incidences of cyberbullying or self-harm.
- Any malfunction of the Chromebook that is not the result of inappropriate use or negligence will be repaired at the district’s expense.
- The district will have devices available that can be checked out to students while devices are being repaired/replaced.
- As the Chromebook is an Internet-Based device, the school will provide internet access while on campus.

## Parent and Student Responsibilities

- Parents and students are responsible for care of the device, and for returning the Chromebook in good working condition.
- Parents and students are responsible for replacing or repairing Chromebooks damaged as a result of negligence or inappropriate use. Insurance for the device will be offered to parents and students at the time of checkout.
- Parents and students are responsible for providing their own internet access for the Chromebook if desired. Offline access will be enabled on the device if no internet is available.
- When using the device, students understand that Chromebooks are district property, and they may be used only for non-commercial purposes in accordance with Anderson Public Schools District Policy, as well as local, state and federal laws.

## Damaged Chromebooks

- Students with a damaged Chromebook need to report the damage to their classroom teacher or take them to Mrs. Elliott in the computer lab.

## Digital Citizenship

The district encourages all students using Chromebooks to follow basic rules of Digital Citizenship when working on and browsing the web:

- Think before you post - Sometimes words can be misinterpreted when sent across the internet. Additionally, anything you post, whether in a document or on social media, can leave a digital footprint that follows you.
- Respect the privacy of others - If you want others to respect your privacy, then you must respect theirs as well. Posting embarrassing information about a friend or forwarding private content without asking can cause unintended harm to others.
- If you can’t say something nice, don’t say anything at all - If you wouldn’t say it in person, don’t say it online. Stand up for others and prevent bullying.
- Give credit where credit is due - if you use someone else’s thoughts or ideas, give them credit for it online. Illegal downloading, cheating, or copying content from others may be easy, but it isn’t right. You have a responsibility to respect the work of others, as they should respect yours.
